

Intern FAQ – AI Bootcamp (Sample)

Generated for testing on 2026-01-25.

Question	Answer
What is the AI Bootcamp?	A structured learning program focused on RAG, LLM APIs, and deployment skills.
How do I ask the bot a question?	Use !ask <question> or mention the bot: @RAG-bot <question>.
Where are the source documents stored?	In MongoDB Atlas collection named rag_db.chunks, indexed for vector search.
What if the bot cannot find an answer?	It should respond: "The answer was not found in the documents."
Office hours policy	Check Discord announcements for exact times. Use office hours to unblock, not to wait.

Keywords for retrieval testing: vector_index, \$vectorSearch, chunk_id, embeddings, DeepSeek-R1, text-embedding-3-small.
